

Dear Valued Partner,

Ref : VMJ/Circular/2904/21

Date : 29/04/2021

CIRCULAR – Covid-19 Impact

With a massive second wave of Covid-19 through out of INDIA, Government of India has imposed lock down in Mumbai & other part of INDIA. Further, in Mumbai Government has imposed strict restriction as a precautionary measures to control the pandemic situation.

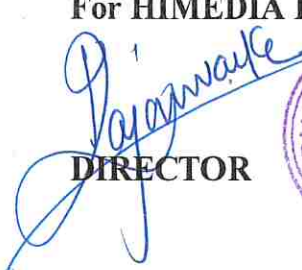

Government of Mumbai has impose lockdown in Mumbai, Maharashtra state due to rising number of Covid-19 cases & it may prolong as per Government authorities decision, as per strict restrictions only essential services will work with 50% capacity & other restrictions and priorities are given only for Covid related products. In this case our company is manufacturing Covid related product & has to give priority to manufacture & supply for Covid products like VTM kits, RT PCR kits, Reagents and plastic ware used for Covid-19 testing. Therefore, your order might get delayed than the routine schedule which is beyond our control.

In this pandemic situation we are working with lot of strict restrictions and due to the same order processing & manufacturing time is taking more time than usual. Also note that in Pandemic restrictions logistics and airfreight is also badly impacted and price of airfreight charges increased tremendously due to non-availability of Airlines / flight, very few airlines is operating from INDIA .

We are trying our level best to comply orders Nationwide as well as Worldwide. You are requested to take a note of the same and bear with us for the unusual delay.

We expect your Co-operation in this unusual crises of Covid-19 pandemic.

Best regards,

For HIMEDIA LABORATORIES PVT.LTD.
